

Program Name: Diploma in Mechanical Engineering

Vision

- **To nourish the rural youth by technical education favorable to mechanical industries and social excellence**

Mission

M1:- To create awareness of technical education & minimizing the gap between industry and rural youth by industrial visits & internship programs

M2:- To make the students ready with technology in Mechanical Engineering through workshops

M3:- To enable the students to overcome the challenges in higher studies & industrial profession by Seminars

The Mechanical Engineering students are expected to achieve the following defined PEOs.

- **PEO 1: To enable students with modern tools & technology for higher education and endless learning**
- **PEO 2: To prepare mechanical diploma graduates for employability in technical field**
- **PEO 3: To develop socially responsible engineering professionals**
